Democracy means "the people rule." A state in which the people at large possess the whole sovereignty is rightly denominated a Democracy. There are but three clearly distinguishable methods of government-the monarchical, the aristocratic and the democratic. The first two are of like nature—the last is altogether antagonistic to both of the others. Democracy, as a principle, entitles each citizen, in common with every other, to an equal interest in the gress in that district. State. A government based upon it can acknowledge no conflicting interests among the people to be favored or opposed. All its legitimate ends are accomplished when public safety and individual liberty are maintained. In a democracy every positive regulation, not actually indispensable to the public and general welfare, which restrains, or even indirectly tends to restrain, individual liberty in any degree, however slight, so far violates the spirit of be wholly expelled, but it is the office of for whiskey done good one time. democracy to restrain their influence on official action within the narrowest limits. Democracy, regarded as a principle, plainly indicates the means of instituting all needful supervision of the government. In a great and prosperous country like this there is no possible safeguard against robbery by those who control the machinery of the government. We once boasted of the independence of the States, but alas! crushing weight of the government now, as compared with the freedom and good will that existed and was enjoyed before the accession of the Republican party to power. Who can contemplate, without feelings of the deepest regret, the untold losses of life and the waste of treasure, caused by its accession to power in the year 1860. The party at that time was a mere faction, but by an unfortunate combination of circumstances it attained to a power which it has abused, and which, in part by fraud and artifice, it has since held. The Democratic party lost its power in 1860 by jealous factions, and the unfortunate lesson has cost the country untold millions. Let us adopt the old Kentucky motto "United we stand, divided we fall," and in our Congressional and Presidential contests success will perch upon our standard.

Something that Don't Happen Every Day. Some years ago in one of the eastern States a tramp came up to a cozy little farm house, about sundown. His clothes were soiled and his feet blistered, long and toilsome had been his journey, and the end was not yet. He asked for a night's lodging and something to eat, which was cheerfully granted by the little housewife, who was careful to entertain strangers. The tramp seemed to be a man of some polish, with nething of the true gentleman about him. The next morning the man of the house invited him to spend a few days and rest himself which he did, and then went on his journey with body and clothes in a better condition. Years came and went, and the idol, and he idled and then she idled, you poor tramp was almost forgotten by the are creation's belie, and she bellowed and family. "THE LOST CAUSE."—A magnificent picture 14 x 18 inches in size, beautiful in design and artistic in execution. It represents a confeder ate sulfier after the war returning to his home, which he finds lonely and desolate. In front of the mined cottage, telling a sad tale of the miseries of war, are two graves with rade crosses, on one of which some friendly hand has bung a garland. To the right the ealm river and the rising moon indicate peace and rest. The stars, seen through the trees, represent the Southern Cross. It is a picture that will touch every Southern heart, and should find a place in every Southern home. From all parts of the country reports come of the immense sales and increasing demand for that deservingly popular sewing Machine. The Old and Reliable "STANDARD," the price of which the proprietors wisely reduced to \$20, including all the attachments, and at once secured for them a popularity among the people, far beyond that ever yet attained by any other machine at any price, the consequence of which is, agents are leaving the old high priced machines, and seeking territory for the "STANDARD." Knowing from experience that with the best goods at the lowest price they can outsell all other Machines, where the superior quality and low price is made known. This splendid Machine, combines all the improvements. Is far ahead of all others in beauty and durability of its work, case of management, light running and certainty of operation, is sensibly made upon sound principles, with positive working parts all steel, and can be safely put down as the very perfection of a Serviceable Sewing Machine, in every particular, that will outlast any Machine, and at a price far down below any other. It is thoroughly warranted for five years. Kept in order free of charge. And sent to any part of the Country for examination by the customer before payment of the bill. We can predict equally as large a demand for them in this section as in others. Families desiring the best Machine manufactured should write direct to the Factory.
